## SUMMARY

I'm a proficient MERN stack developer specializing in crafting visually striking frontend interfaces and implementing robust backend logic. With expertise in MongoDB, Express.js, React.js, and Node.js, I create seamless web experiences and REST APIs for diverse platforms. With a passion for user-friendly design, I'm excited to contribute to dynamic development teams

## SKILLS

- Redux
- Tailwind Css
- Express.js
- React.js
- Node.js
- Mongodb
- Dart
- HTML/CSS
- JavaScript
- Postman
- Bootstrap

## PROJECTS

### Comprehensive College Management Web Application

Developed a comprehensive college management web application using the MERN stack, WebRTC, Socket.io, Razorpay, RTK Query, and Tailwind CSS. Key features include online video conferencing, real-time chat, group PTA meetings, tuition fee payments, teacher salary management, online examinations, resource sharing, and attendance tracking. Implemented secure user authentication, responsive design, and a robust admin dashboard.

### Personal Portfolio

Developed a React portfolio to showcase projects, utilizing TailwindCSS for styling, React for dynamic user interfaces, and Framer Motion for smooth animations and transitions

### MiniStore Ecommerce Websites

I developed a mini e-commerce website using HTML, CSS, Node.js, and SQL. The frontend offers a clean, intuitive interface, while the Node.js backend efficiently handles requests. SQL securely manages product and user data, creating a responsive and reliable shopping platform.

**EDUCATION**

2021 – 2023      **CHMM College For Advanced Studies**
Masters  of Computer Application

2018 – 2021      **CHMM College For Advanced Studies**
Bachelor of Computer Science

2016 – 2018      **KTCT Higher Secondary School**

**EXPERIENCE**

2023 - Present      **Softzane Solutions**      **MERN**
